Making cash illegal is coming to your nation soon as a part of the centralized digital currency, inherently linked to the digitization of people.

This [new cash] law essentially converts [~10% of the Israeli population] into criminals. Ilana Rachel Daniel

Ilana and Yaffa hit it out of the park on this one. In addition to the war on cash, this episode covers the impact of breastfeeding following injection with COVID-19 products according to VAERS and mRNA injectable product clinical trial data. *Dr. Shir-Raz wanted me to add that the 609 babies included the results from mRNA products combined, and not just from P-fizer.

Dr. Shir-Raz speaks eloquently about ‘the shutting down of instinct of moms’. It’s a very interesting episode.

You can read about this war on cash [here](#) and [here](#).

This is one of the emails I received the other day. I get hundreds daily, and I am hearing you all.

This particular note spoke loudly to me and this lovely person gave me permission to share her words.
